

Case Maker/Assembly Work

Company

Founded in 2002, Q5X first set out to create wireless microphone bodypacks that are safe, tough, and unobtrusive enough to be worn by professional athletes. Q5X succeeded in creating a line of audio transmitters unparalleled in comfort, strength, and concealability, and a groundbreaking system for remote control of transmitters by computer.

Q5X has evolved to become the world leader in audio capture for “Mic’d Up” segments in professional sports. The advances in sports broadcast have translated exceptionally well into other fields, surpassing traditional audio transmitters with a mature, unrivalled solution for reality TV, film production, live theatre, public speaking, and other live events.

Position

The candidate will work with the production team to assemble our lineup of specialized, moulded rubber products under the supervision of the Production Lead and/or R&D team to prepare moulds, pour cases, and finish end products to tight specifications. The position does not require any specific education or previous work experience and caters to anyone interested in repetitive hand-crafted hobby work to precise standards. This is a full-time position based out of our London ON facilities.

Skills, Abilities & Qualifications

The ideal candidate will be someone who:

- enjoys repetitive, hands-on, and process-driven work,
- is capable of precise replication of end products to a high-quality standard,
- has a strong work ethic and ability to work independently and as part of a team,
- is great at repetitive work, while also good at multitasking, and
- has high attention to detail

Prior experience with any of the following is an asset that should be highlighted in the cover letter:

- Making moulds, or general assembly work,
- Specific hand-crafting skills,
- Ability to learn new processes quickly,
- Prior experience working in a multi-functional team and collaborating well with others
- Meeting production quantity, quality, and timeline targets
